## COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

All the material is ready for this town report except one article the attorney for the bonding council is preparing for us. He did not feel the article passed in 1970 giving us authority to borrow for the sewerage program was adequate to cover the complete expenditure. He is wording one he will accept that will be very much the same as the original one.

The highway department has been replenishing the winter stockpile of sand. We felt we might not have enough to last and it was much more efficient to do it when the weather was good than wait until we exhausted the supply and have to do it during stormy weather.

We are preparing a set of rules and regulations for governing the sewer system. Various towns who have adopted them are being contacted, they are sending us their set that we can study them. We will compile the information and adopt those parts that will pertain to our systems.

## S. A. D. 44 DIRECTORS HEAR REPORT OF MUSIC PROGRAM AT MONDAY SESSION

The S. A. D. 44 board of directors held a regular meeting at Telstar Regional High School on Monday evening of this week.

Mrs. Edith Eypper, elementary music supervisor, reviewed the music program as now constituted for grades one through six in S. A. D. 44. At the present time the elementary program consists of general classroom music, which includes a singing program, music reading, and listening. Mrs. Eypper is also responsible for the beginning instrumental instruction on the fifth and sixth grade levels.

Glenn Bangs reviewed the present status of the music program at Telstar Regional High School. The music program at Telstar consists of seventh grade, eighth grade and two high school music courses in an elective basis. The instrumental program is continued through the junior and senior high bands as well as a beginning instrumental program to a much lesser degree than in the elementary. The choral program consists of junior high and senior high chorus. Another general responsibility shared by Mrs. Eypper and Mr. Bangs is administrative duty that includes the complete inventory of their respective areas as well as the drawing up of budgets each year and ordering of materials for their own programs.

The State Supervisor of Music, Dr. Virginia Mori, recommends that every school district employ two music teachers for the first 500 or more and one additional teacher for each additional 500 students. (S. A. D. 44 school have a total enrollment of 1,600.)

It was the recommendation of Mrs. Eypper and Mr. Bangs that S. A. D. 44 utilize three full time music specialists in the following manner: 1. An elementary supervisor to develop a classroom music program in grades one through six; 2. A music supervisor, 7-12, to cover the junior and senior classroom music and all vocal groups; 3. A supervisor to organize and carry out the complete instrumental program in the district.

After comments by several board members, Milton Mills of Woodstock, was directed by consensus to inquire into the feasibility of changing the recently installed lights at the entrances to the Telstar property to directional units and lengthening the bracket of the fixture at the westerly entrance.

The directors approved an expenditure of \$300 of district funds to purchase from Gould Academy of used musical instruments. It was said that if similar instruments were purchased new at current prices the cost would be in excess of \$2,000.

The board granted final official approval to the warrant for the annual

## UPTON

Mrs. Arline Bernier, Corres. —  
A Greenwich Audubon newsletter  
revealed that Bolton Cook resigned  
from one of his tasks that he has  
held for 40 years. Two other mem-  
bers were appointed to take his  
position.

The past week brought more un-  
usual weather. In one 24 hour peri-  
od the temperature rose over 45  
degrees. The weatherman aptly de-  
scribed conditions for a time as  
"blazes." The local sandman called  
the area a skating rink. The minor  
traffic moved slowly and in various  
directions, regardless of the direc-  
tion of the road. We now have  
very little snow covering and bare  
ground shows around some build-  
ings.

Colon and Elsie Fuller went to  
the doctor Friday. Colon has been  
sick for several days and Elsie  
has continued problems with her  
knee. A reminder that Valentine's  
day is Colon's birthday.

The road between Errol and Upton  
is very poor in spite of considerable  
work on it last summer.

Kathy and I went to Rumford Sun-  
day afternoon to attend services at  
the Good News Church which is a  
Pentecostal type.

Two unusual and appreciated birth-  
day gifts were an old postcard of  
the former Lake House which will  
complete my collection and a fresh  
bouquet of pussywillows.

Tom Bachelor drove his mother's  
car back to her home and hitch-  
hiked from there to Upton where he  
is spending an extended vacation.

We extend sympathy to the Geo-  
rgia Pratt family. Georgia was an  
active and much respected citizen of  
Upton for many years.

## GUB SCOUT NEWS

A total of 48 Cubs and dads at-  
tended the Oxford Lanes in Rumford  
for an afternoon of bowling this  
past Sunday. From the expres-  
sions on all the faces it appeared  
that the dads seemed to enjoy the  
trip as much as the Cubs. All in all,  
the afternoon showed some great  
talent among the kids and the follow-  
ing scores will attest to that: the  
highest score was bowled by Eric  
Hastings with a tremendous 83;  
other boys and their scores are:  
Chuck Hurd 72, Tony Butters and  
Roger Coriveau 68, Lawrence Smith  
65, Scott Hurd 64, and Les Bates  
61. 60, Ricky Roy and Jeff Bart-  
lett were the only two boys to get  
strikes.

The following boys managed to get  
spares: Eric Hastings (2), Chuck  
Hurd, Timmy Kersey, Roger Cor-  
iveau, Tony Butters and Fernando  
Coriveau.

After the bowling party the group  
stopped at McDonald's and enjoyed  
an after bowling treat. Thanks a lot  
dads, you made a lot of kids happy!

Mrs. Alice P. Hoyt, Corres.  
The Woodstock Conservation Commission voted to support a legislative bill presently in the draft form which would require deposits on all beverage containers (beer and soft drink) sold in Maine. The advantage of this bill would be to reduce waste disposal costs and most important to reduce litter by discouraging cans and bottles along the highway and in our town, and encourage others to pick up what is discarded. The bill in its present form would require a refundable deposit of not less than four cents on each beverage container. The retail dealer would charge a consumer a deposit of one cent in excess of the refund value, which would help the retail dealer pay for handling and storage costs. The bill would make it illegal to sell containers with the so-called "pull tab" or "popper" in hopes of reducing the litter. It is the opinion of the Woodstock Conservation Commission that passage of this bill will help to clean up some of the litter later from our town, and encourage others to pick up what is discarded.

Mr. and Mrs. Roland Lord visited Mr. and Mrs. Ernest Day over the weekend.

Robertia Croteau is one of 14 girls who participated in the Nurse's Aide Training Program at Rumford Community Hospital.

The program began last fall. Twelve students would arrive at school at about 7 a. m. and board a bus which took them to the Rumford hospital in order to begin work at 8.

At the start of the program the girls attended class, in which they learned about such things as basic anatomy. After a few weeks they began working with patients on the floor. Gradually they worked up to full time floor work, "learning by doing". By the end of the course, the nurse aides were working shifts, 7:30 and 3-11:00. The girls were tested for their skills and graduated Jan. 31.

Robertia lived in Bethel until she was 10 years old, then her parents, Mr. and Mrs. Robert Croteau, moved to Bryant Pond, where they now reside. Robertia likes to draw and cook, and is interested in acting. She has been a member of the Drama Club at school for the last two years. Last year she was voted Actress of the Year (also Miss Blueberry), and is now president of the club. She is co-producer of the Senior Class Play, which will be presented in March, and is also rehearsing her part in the play with the rest of the cast.

Robertia is co-editor of the school

of their work time may take place during school hours.

The Co-operative Education Program started at Telstar this year under the sponsorships of the Maine Department of Education, Bureau of Vocational and Adult Education.

Co-op is a co-operative venture between the school and employers to provide work experience for high school juniors and seniors. The objectives are: to provide work experience for students in an occupation that they have some interest in pursuing as a career; to provide training in that occupation to make them more employable once they finish school; to allow them to explore a career to find out if it is a vocation they want to pursue for their livelihood; and to teach them proper job attitude and responsibility through their work experience and related course work.

The students receive graduation credit from the co-op experience. This allows for a reduced workload in school and makes it possible for them to work during school hours.

In addition to their co-op experience, the students will take a special course at Telstar on relevant to employment and summer education.

A total of 42 Telstar students enrolled in this year's program.
